PITER DOUGLAS FERREIRA GOMES

Full-Stack Developer | Computer Science Student
Germany | +49 179 2086189
piterg.bio@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

From biology to software development: Computer Science undergraduate and **Full-Stack Developer** turning an analytical, research-driven background into full-stack web applications. Hands-on experience building backend services and frontends, including REST APIs and relational/NoSQL databases. Motivated to keep growing in international, collaborative engineering teams.

TECHNICAL SKILLS

Backend: Go · Python · Java · Spring Boot · REST APIs

Frontend: TypeScript · React · Next.js · Angular · HTML5 · CSS3 · SCSS · Tailwind CSS

Databases: PostgreSQL · MySQL · MongoDB · SQLite

Tools & Practices: Git · GitHub · GitLab · GitHub Actions · Docker · VS Code · Swagger/OpenAPI · Automated Testing · Clean Code

PROFESSIONAL EXPERIENCE

Full-Stack Development Intern *Aug 2026 – Present*
TipManager – Technology Consulting | Remote

- Develop and maintain features for an **e-sports analytics platform** delivering real-time statistics, data analysis, and AI-powered insights across multiple e-sports titles.
- Work on **backend development with Go and Python**, **frontend development with TypeScript**, database management, and data analysis, applying architecture and testing practices to production code.

Customer Support Specialist *May 2021 – Present*
Majorel – Münster, Germany | English / Portuguese

- Manage customer requests via phone, email, and chat, supporting client accounts and campaigns within multicultural, international teams.
- Built strong **communication, teamwork, organization, and structured problem-solving** skills while maintaining high customer satisfaction.

PERSONAL PROJECTS

MindK AI - Demo | GitHub
React · TypeScript · Vite · Go · SQLite · PostgreSQL · OpenAI · Clerk · Docker
Knowledge-management app where users write notes, upload documents, and chat with an AI assistant grounded in that content through a real Retrieval-Augmented Generation (RAG) pipeline, with cited sources, per-user data isolation, and a layered, tested Go REST API.

Terminuler - Demo | GitHub
Next.js · React · TypeScript · Tailwind CSS · Go · PostgreSQL · Clerk · Resend · Docker
Appointment booking system where customers pick a free one-hour slot and receive a confirmation email, while an administrator manages bookings from a protected dashboard. Server-side double-booking prevention, Go and Playwright tests running in GitHub Actions.

Tickordo - Demo | GitHub
Next.js · React · TypeScript · Tailwind CSS · Go · PostgreSQL · OpenAI · Docker
AI-powered support ticket triage app that suggests category, priority, sentiment, team, summary, and next action for each ticket via the OpenAI Responses API with structured output, including AI cost controls and CI on GitHub Actions.

Worklog - GitHub

Java · Spring Boot · PostgreSQL · Angular · TypeScript · SCSS · RxJS

Daily activity tracking app where employees log tasks by program, team, language, and activity with automatic time tracking, backed by business rules enforcing one open activity and one workday per date.

EDUCATION

Bachelor's Degree in Computer Science *2023 – 2027 (expected)*

FAM – Faculdade das Américas, São Paulo, Brazil

Currently in the 7th semester, developing skills in software development.

Master's Degree in Oceanography — UERJ, Rio de Janeiro, Brazil (2014 – 2016)

Bachelor's Degree in Biological Sciences — Souza Marques University, Rio de Janeiro, Brazil (2008 – 2012)

COURSES & CERTIFICATIONS

- **Google Cloud Computing Foundations** – cloud infrastructure, networking, and security basics
- **Red Hat Trainings** – Linux I & II · Java EE 7.0 Development · OpenStack Administration I

LANGUAGES

Portuguese (Native) · English (Advanced) · German (Intermediate) · Spanish (Intermediate)

SOFT SKILLS

Fast learner with strong ownership mindset · Clear communication and teamwork · Analytical thinking and problem-solving · Adaptability in multicultural environments
